

# ECRAID-Prime: Pictorial Participant Information

## Sheet Summary – For Remote Recruitment

### For Nitric Oxide Nasal Spray and Saline Nasal Spray

#### Purpose of the trial:

Finding new treatments to help people with cold, flu-, or COVID-like symptoms, get better quicker. How well Nitric Oxide Nasal Spray (NONS) and Saline Nasal Spray work to ease symptoms, keep people out of hospital, and stop the spread of illness in the families.

#### Who we're looking for:

- Aged 18 or over
- Have symptoms like cough, sore throat, runny nose, fever, headaches, or tiredness
- Able to start taking the study product (if allocated to one) within 3 days since onset of symptoms
- Not pregnant, currently not breastfeeding

**Your participation is voluntary. You can stop taking part at any time you want to.**

We will use the information you gave us before you stopped.

## What's involved?

### Screening (remote)

The Oxford ECRAID-Prime trial team at the University of Oxford will:

- Inform you about the trial; if you wish to participate, you sign the informed consent form
- Confirm you are eligible for the trial, and you can safely participate
- Collect data about you and your health
- Provide materials for you to take nose/throat self-swab(s) at home

### Randomisation (remote)

You will be allocated by chance to either receive one of the nasal spray interventions for treating your respiratory infection, or only the care your GP would normally provide.
