

## RG02: DRUGS REFERENCE GUIDE

For reference in:

1. determining patient eligibility based on number of current anti-hypertensive drugs
2. completion of CRF section on 'other medications'

### ANTI-HYPERTENSIVES – for eligibility determination

**Please note:** Some anti-hypertensive medications contain more than one anti-hypertensive drug combined in one tablet. For eligibility purposes, each anti-hypertensive drug should be **counted individually** (as indicated by the number in the brackets).

#### Thiazide & related Diuretics

		In combination medications	
Bendroflumethiazide (bendrofluazide)	(1)	Co-triamterzide = bendrofluazide + triamterene	(2)
Chlortalidone	(1)	Co-tenidone = atenolol + chlortalidone	(2)
Cyclopenthiiazide (Navidrex)	(1)		
Hydrochlorothiazide	(1)		
Indapamide	(1)		
Xipamide	(1)		

#### Potassium sparing diuretics

		Potassium sparing diuretics with other diuretics	
Amiloride	(1)	Co-amilofruse = amiloride + frusemide	(2)
		Burinex = amiloride + bumetanide	(2)
		Co-amilozide = amiloride + hydrochlorothiazide	(2)
Spiroinolactone (aldactone)	(1)	Co-flumactone = spiroinolactone + hydroflumethiazide	(2)
Triamterene	(1)	Co-triamterzide = triamterene + bendrofluazide (Dyazide)	(2)
		Dytide = triamterene + benzthiazide	(2)
		Frusene = triamterene + frusemide	(2)

#### ACE inhibitors

		ACE inhibitors in combination medications	
Captopril (capoten)	(1)		
Cilazapril (vasace)	(1)		
Enalapril (Innovace)	(1)	Innozide = enalapril + hydrochlorothiazide	(2)
Fosinopril	(1)		
Lisinopril (carace, zestril)	(1)	Carace Plus / Zestoretic = lisinopril + hydrochlorothiazide	(2)
		Zestoretic = lisinopril + hydrochlorothiazide	(2)
Quinapril (accupril)	(1)	Accuretic = quinapril + hydrochlorothiazide	(2)
Perindopril (coversyl)	(1)	Conversyl Arginine Plus = perindopril + indapamide	(2)
Ramipril (tritace)	(1)	Triapin = ramipril + felodipine	(2)
Trandolapril	(1)		

## Angiotensin II blockers

		ARB in combination medications
Candesartan	(1)	
Irbesartan	(1)	CoAprovel = irbesartan + hydrochlorothiazide (2)
Losartan	(1)	Cozaar-Comp = losartan + hydrochlorothiazide (2)
Olmesartan	(1)	Olmotec plus = olmesartan + hydrochlorothiazide (2)
Telmisartan	(1)	Micardis Plus = telmisartan + hydrochlorothiazide (2)
Valsartan	(1)	Co-diovan = valsartan + hydrochlorothiazide (2)
		Exforge = amlodipine + valsartan (2)

## Beta blockers

		B-blockers in combination medications
Atenolol (tenormin, tenoret, adalat)	(1)	Co-tenidone = atenolol + chlortalidone (2)
Bisoprolol (cardior, monocor)	(1)	
Carvedilol (eucardic)	(1)	
Metoprolol (betaloc, lopresor)	(1)	
Nebivolol	(1)	
Propranolol (nderal)	(1)	
Sotalol	(1)	

## Alpha 1 Blockers

Doxazosin (Cardura)	(1)
Prazosin	(1)
Terazosin	(1)

## Calcium Antagonists

		Calcium antagonists in combination medications
Amlodipine (istin)	(1)	Sevikar = olmesartan medoxomil + amlodipine (2)
		Sevikar HCT = olmesartan medoxomil + amlodipine + hydrochlorothiazide (3)
		Exforge = amlodipine + valsartan (2)
Diltizem (tildem, adizem, angtil, dilzem, tildiem, zemtard)	(1)	
Felodipine	(1)	
Lacidipine (motens)	(1)	
Nicardipine (cardene)	(1)	
Nifedipine (adalat, adipine, coracten)	(1)	
Verapamil (cordilox, securon)	(1)	

## Vasodilator anti-hypertensives

Hydralazine
Minoxidil

### Centrally acting anti-hypertensives

Methyldopa	(1)
Moxonidine	(1)

### Adrenergic neurone blocking drugs

Guanethidine	(1)
Debrisoquine	(1)

### OTHER DRUGS – for record on CRF only (do not count in eligibility determination)

#### Statins

Atorvasatain (lipitor)	(1)
Fluvastatin	(1)
Pravastain (lipostat)	(1)
Simvastatin (zocor)	(1)

#### Other lipid lowering drugs

Benzafibrate	(1)
Ciprofibrate	(1)
Fenofibrate	(1)

#### Other antiplatelet

Clopidogrel (Plavix)	(1)
Dipyridamole (persantin)	(1)

#### Anticoagulation

Warfarin	(1)
Acenocoumarol (sinthrome)	(1)
